The Most powerful, affordable, portable, versatile MIG Welder in the world!

The ReadyWelder Model #10000 is most frequently used by the farming, ranching, & boating industries as well as off-road enthusiasts, or anyone that is going to be using batteries as their primary power source. The portable RWII makes welding in remote locations quick and easy.

The Model #10000 will also connect to most MIG/CV (constant voltage) machines and all DC output-welding machines. This model will run off any 12, 18, 24 & 36 volt batteries in series depending on the application and material to be welded. The ground cable is attached to the red quick disconnects. The Model #10000 has a one year 100% parts and labor factory warranty.
